- Disability and community participation research
- Driving and community mobility
- Enabling mobility in the community
- Family caregiving
- Growth and occupational well-being of youth
- Health equity, opportunity and education
- Innovations in education
- Low vision and aging
- Maternal health
- Medication adherence
- Neuroscience and rehabilitation
- Participation, environment and performance
- Sleep, mood and cognition
- Social exclusion

The Program in Occupational Therapy is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 7501 Wisconsin Avenue, Suite 510E Bethesda, MD 20814. ACOTE's telephone number, c/o AOTA, is (301) 652-AOTA and its web address is www.acoteonline.org.

Graduates of the Program are eligible to sit for the national certification examination for occupational therapists which is administered by the National Board for Certification in Occupational Therapy (NBCOT), located at One Bank Street, Suite 300, Gaithersburg, MD, 20878. NBCOT's phone number is (301) 990-7979 and its web address is www.nbcot.org.

A felony conviction may affect a graduate's ability to sit for the NBCOT certification exam or attain state licensure.

Washington University encourages and gives full consideration to all applicants for admission, financial aid and employment. The University does not discriminate in access to, or treatment or employment in, its programs and activities on the basis of race, color, age, religion, sex, sexual orientation, gender identity or expression, national origin, veteran status, disability or genetic information. Inquiries about compliance should be addressed to the University's Vice Chancellor for Human Resources, Washington University, Campus Box 1184, One Brookings Drive, St. Louis, MO 63130. The School of Medicine is committed to recruiting, enrolling and educating a diverse student body.

**Lexi Hanson,
OTD/S '25**

Hometown: St. Louis, MO
Undergraduate degree:
BA in psychological and brain
sciences, Washington University
in St. Louis

What is your definition of OT?

OT means something different to everyone, which is what I love about the profession. I believe OT means helping people participate in the activities that they find meaningful and allowing them to feel the best they can, physically, mentally and emotionally. OT facilitates making a difference and changing the way people view and engage in their lives.

Why did you choose the OTD degree?

Earning an OTD degree is a great opportunity that I believe is the best choice for me. It is a full circle for me and allows me to give back to a community that helped me when I was younger.

What are your career goals?

My goals are evolving! After practicing clinically as an occupational therapist, a possible long-term goal is advocating for children's rights and becoming involved in OT policy.
